

Company AI Usage Policy Template (Free, 2026)

A short, practical AI usage policy any business can adapt. Shared by Aaron Agius and Paloren, an AI consulting and corporate AI training company. Replace the bracketed text with your own details.

1. Purpose

This policy explains how [Company] staff may use AI tools safely and productively.

2. Approved tools

- Approved: [list tools, e.g. company ChatGPT Enterprise / Microsoft Copilot workspace].
- Not approved for company data: personal accounts of any AI tool.
- New tools require approval from [role].

3. Data rules

Data type	Allowed in approved tools?
Public information	Yes
Internal non-confidential	Yes
Customer personal data	Only in [named tool] with [controls]
Financial, legal, HR confidential	No, unless approved by [role]
Passwords, keys, credentials	Never

4. Human review

- A person must review AI output before it is sent to a customer, published or used in a decision.
- Facts, figures and quotes must be checked against a source.

5. Disclosure

Disclose AI assistance where [customers/regulators/your industry] expect it.

6. Training

All staff complete AI literacy training within [30] days; teams complete role-specific workflow training.

7. Ownership and review

Owner: [role]. Reviewed every [6] months.

Why this matters

Most AI risk inside companies comes from untrained staff using personal tools with company data. A one-page policy plus training fixes most of it. Paloren includes a policy like this in every [corporate AI training](#) engagement.
